Problem Statement

Problem

- Patients lack accountability with exercise
- Doctor do not get an honest evaluation of patient's activity level

Proposed Solution

- Allows doctors access to patient activity
- Allow doctors to track exercise schedules with patients

"I guess I should start exercising again. My treadmill sent me a friend request!"

The Evolution of RU Healthy: Post-Demo 1

- Data retrieval from Android to Web Page

- Bayesian Prediction to predict heart rate recovery and detect anomaly

- Scheduler feature to set reminder for exercise schedule

- Improved User Interface with minimized user effort

- User interviews with potential stakeholders

Current Version of 'RU Healthy'

Demo 1

Demo 2

Future Works

- Finding physicians in the neighbourhood based on location

- Allow physicians to set appointments

- Message service to allow physicians communicate with patients

- Find interested business parties
